How This Calendar Works

01

5 Videos a Day

Every day has exactly 5 short, focused videos — tap the title to watch directly on YouTube.

02

Easy → Hard

Videos are sorted from easiest to hardest, so difficulty ramps up gradually as you progress.

03

Practice Day Every 7th Day

After every 6 days of new content, Day 7 is a dedicated Practice Day — no new videos, just revise and re-solve.

04

Bonus Deep-Dive Courses

Longer topic-wise full courses are listed separately at the end — use them to go deeper on any weak topic.

Follow the order.

Don't skip ahead — the sequence is designed to build your fundamentals before tackling harder problems. Check off each video as you complete it.
